

# KWS Meridian

SEEDING  
THE FUTURE  
SINCE 1856

## Conventional six-row feed

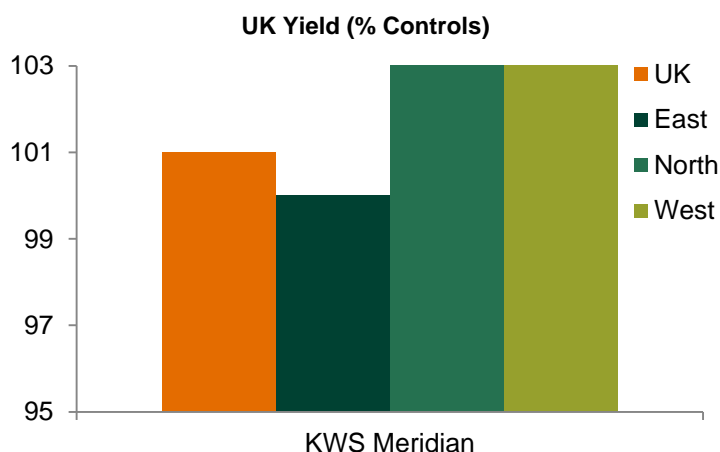

- **Excellent untreated yield**
- **Excellent net blotch unrivalled mildew resistance**
- **Tall and relatively stiff**

KWS Meridian is a stand out variety in Scotland/ Not surprisingly, with the highest untreated yield on the Scottish Recommended List, KWS Meridian also has one of the best all-round disease packages of any winter barley.

With 7-ratings for both net blotch and brown rust, with mildew at an 8; spray selections should target *Rhynchosporium*, particularly in the north.

KWS Meridian is the tallest, but one of the stiffest barleys available, providing valuable straw yields on a secure, high-yielding crop.

KWS Meridian is not on the AHDB Recommended List.
