**Grain yield (as % control)**

UK	East	West	North	Untreated
104	104	102	105	94

**Quality**

Specific weight (kg/hl)	69.0	Good
-------------------------	------	------

Screenings % through 2.25mm	1.8
-----------------------------	-----

Screenings % through 2.5mm	5.8
----------------------------	-----

Nitrogen (%)	[1.42]
--------------	--------

**Agronomic features**

Lodging resistance (1-9)	7	Medium-high
--------------------------	---	-------------

Straw height (cm)	69	Short
-------------------	----	-------

Ripening (days +/- Concerto)	0	Medium
------------------------------	---	--------

Brackling resistance (1-9)	9	High
----------------------------	---	------

**Disease resistance (1-9)**

Mildew	9	Very high
--------	---	-----------

Yellow rust	[8]	High
-------------	-----	------

Brown rust	5	Medium
------------	---	--------

Rhynchosporium	5	Medium
----------------	---	--------

Ramularia	7	Medium
-----------	---	--------

**Notes**
