

VISCOUNT

Winter Wheat

Robigus x Canterbury

SEEDING
THE FUTURE
SINCE 1856

The distiller's choice!

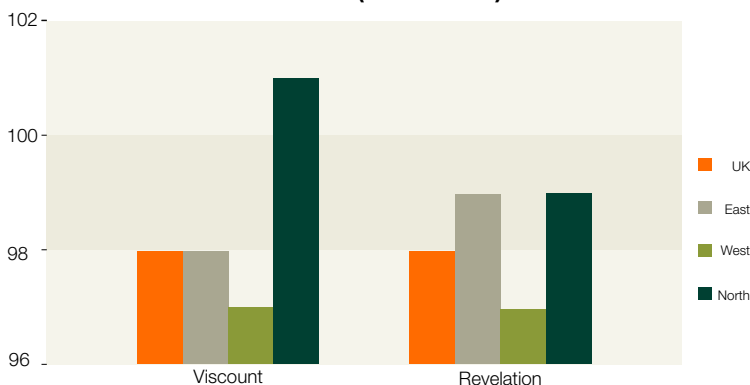

- Northern recommendation - very popular in Scotland
- Fits into a very wide range of markets
- Excellent agronomics
- Very long grain-fill period

A Scottish favourite soft wheat variety, Viscount suits earlier drilling. Its bright, bold grain and one of the highest alcohol extraction levels mean it is very popular with distillers.

With moderate winter dormancy, it has good tillering ability and tiller retention, backed by a reasonable disease resistance package.

In common with many other varieties Viscount is susceptible to yellow rust, so this disease is a priority when selecting seed treatments and T0/T1 fungicides.

UK Yield (% Controls)

	Viscount	Revelation
Yield (%)		
UK	98	98
East	98	99
West	97	97
North	101	99
