

LEEDS

Winter Wheat
Istabraq x Robigus

SEEDING
THE FUTURE
SINCE 1856

Follow the Leeder!

- Established Group 4 soft
- Suitable for distilling and **uks** exports
- Consistent performance as first and second wheat
- High specific weight

Leeds performs well on light land and whilst grown UK wide, its the strongest performance is in the North where it is well proven on farm.

Leeds is a fast developer and so best suits mid September drilling onwards. Its vigorous growth habit means it can compete with blackgrass and is suitable for later sowing.

Leeds has a 7 rating for Fusarium, one of the best on the Recommended List. Its strong disease profile also includes OWBM resistance, although its mildew will need controlling.

	Leeds	Revelation
Yield (%)		
UK	101	98
East	101	99
West	100	97
North	102	99
Disease		
Mildew	3	5
